Driven by the forces of love, the fragments of the world seek each other so that the world may come into being. Love alone is capable of uniting living beings in such a way as to complete and fulfill them, for it alone takes them and joins them by what is deepest in themselves -- Pierre Teilhard de Chardin

### **The World's Biggest Concert Ever**

Live Earth is a monumental music event taking place on July 7th 2007 (07/07/07). The 24 hour, 7-continent, star-studded show will begin in Sydney, Australia, and then roll around the globe with concerts in Tokyo, Johannesburg, Shanghai, Hamburg, London's Wembley stadium, New York and finally, at 8pm, Rio de Janeiro's Copacabana beach. A special performance at the British Antarctic Survey Station in Antarctica will ensure all seven continents are included. There will be saturation coverage from TV, radio, the internet and at more than 6,000 parties in 119 countries. Live Earth aims to engage, connect, and inspire individuals, corporations and governments to take action to solve the climate crisis. The global program will reach an estimated 2 billion people worldwide!
