

daily GOOD

An optimist is a person who sees a green light everywhere, while a pessimist sees only the red stoplight ... the truly wise person is colorblind. --Albert Schweitzer

The human eye can see 7,000,000 colors. Yellow, pure bright lemon yellow is the most fatiguing color since more light is reflected by bright colors, resulting in excessive stimulation of the eyes.

Be The Change:

Be colorblind for the day. Don't judge anything by its appearance.
