Medicine has come to accept that it's not just science, it's more of an occupation of caring. --Yen Truong

**Female Doctors**

For the first time ever, women outnumbered men among people applying to U.S. medical schools for this fall — a milestone in the slow but steady increase in the number of aspiring female doctors. Of the 35,000 total applicants, 17,672 were female.

**Be The Change:**

Send some flowers to your doctor, any doctor.
