Photography is the power of observation, not the application of technology. --Ken Rockwell

100 Photographs That Changed The World

Can a photograph chart the course of humanity? LIFE magazine thinks so. In its '100 Photographs that Changed the World' compilation, renowned photographers feature photos ranging from the innocent face of a 14 year Anne Frank looking out towards her future to a humble Chinese man refusing to move from the jaws of gigantic tankers heading to Tienamen square.

Be The Change:

Read Rockwell's "How to Make Great Photographs" guide and go out change the world!
