

daily GOOD

The most exciting breakthroughs of the 21st century will not occur because of technology but because of an expanding concept of what it means to be human. --John Naisbitt

World's Greatest Green Inventions

What if there was an electric car that went from 0-60 mph in less time than a Ferrari, all while getting 100 mpg? What if we could use advanced monorail technology to create frictionless wind turbines? From Solar powered LEDs to Cellphones to greener aircraft, there's a new breed of inventors coming up with cutting-edge creations while also keeping the long-term health of the Earth in mind. Check out the world's coolest green inventions.

Be The Change:

Read these simple ways in which you can help the environment in daily life. Implement as many as possible starting today.
