Education is not the filling of a pail, but the lighting of a fire. --Yeats

What would you do with a million dollars? Twenty leading scientists will receive a million bucks over the next four years to bring the creativity they have shown in the lab to the undergraduate classroom. "Research is advancing at a breathtaking pace, but many university students are still learning science the same old way, by listening to lectures, memorizing facts and doing cookbook lab experiments that thousands have done before."

Be The Change:

Share an insightful book with a student and help light the fire in their heart.
