

## daily GOOD

The most beautiful thing we can experience is the mysterious. It is the source of all true art and all science. He to whom this emotion is a stranger, who can no longer pause to wonder and stand rapt in awe, is as good as dead: his eyes are closed. --Albert Einstein

### Universe

The Hubble telescope celebrates its 15th birthday this week, and in that time it has provided scientists breakthrough images on everything from the birth of stars, to the age and expansion rate of the universe, to the presence of dark matter, to comet Shoemaker-Levy 9's impact with Jupiter. Take a virtual journey thru Hubble's top 10 discoveries.

### Be The Change:

Lie on your back and stare up at the night sky tonight.
