

daily GOOD

I'm always astonished by a forest. It makes me realize that the fantasy of nature is much larger than my own fantasy. I still have things to learn.
--Gunter Grass

Old Growth: The Best Writing About Trees

To celebrate the release of "Old Growth," -- an anthology released by Orion Magazine-- of essays and poems about the lives of trees, Robin Wall Kimmerer held a conversation with Robert Macfarlane and David Haskell. The trio of celebrated nature writers discussed the legacy of trees in deep time, that they each detail in their most recent books, *Braiding Sweetgrass*, *Underland*, and *The Song of Trees*, respectively. They explore the personhood of trees, root communities, and the ways to nurture our canopies. Watch the recording [here](#). Together, they discussed the idea of the
