The sea, once it casts its spell, holds one in its net of wonder forever.

Fishpeople: Lives Transformed By The Sea

This breathtaking film tells the story of people who are dedicating their lives to the sea. From Hawaii, Tahiti, Catalina Island, Antarctica, Australia and San Francisco, we witness spectacular images of the ocean as we are introduced to: a woman spearfisher who expresses compassion for her prey, an endurance swimmer, a photographer who captures the vast expansiveness of the ocean with his camera, and expert surfers, including a man who feels it is his duty to teach children who have experienced trauma in their young lives to love the sea. They all share a common love and respect for the ocean.
