Unexpected intrusions of beauty. This is what life is. --Saul Bellow

Why Beauty Matters

"The content of these writings flow from a paradigm shift in the cosmology of our culture that is happening at this time. The timeless recognition of Consciousness and its productions (the apparent world around us) is also experienced as Beauty. The old "materialist" culture is giving way to a deeper Truth; the unity of everything. Beauty is one way into this new understanding." Scott Guyon shares more.
